

Workshop Programme

Short-wavelength science with VLT: planning for SHARPS

University of Exeter, Forum, UK and Zoom

Wednesday, 29 July 2026

Time	Presenter/Moderator	Topic
9:00 – 9:20	Stefan Kraus	Welcome; VLT and current capabilities of facility instruments
9:20 – 9:40	Dan Lancaster	Asgard visitor instrument Suite
9:40 – 10:00	Mathias Nowak	SHARPS technical concept
10:00 – 10:30	Stefan Kraus	Stellar Astrophysics
10:30 – 11:00	Coffee break	
11:00 – 11:30	Hugo Nowacki	Exoplanet host stars
11:30 – 12:00	Sasha Hinkley	Exoplanet astrometry
12:00 – 12:30	Stefan Kraus	Planet-/Star formation
12:30 – 14:00	Lunch break	
14:00 – 14:30	Mathias Nowak	Quick recap of morning activities and of SHARPS concept
14:30 – 15:00	Stefan Kraus	Galactic: microlensing, Galactic Archaeology, ...
15:00 – 15:30	Matthew Temple	Extragalactic: SMBHs/AGNs
15:30 – 16:00	Coffee break	
16:00 – 16:30	Romain Petrov	Cosmology: Hubble tension, ...
16:30 – 17:00	Stefan Kraus	Brainstorming on other science cases; closing discussion

The specified time window will include introductions from the specified presenters/moderators, followed by general discussion and work on the white paper
